B EPPI used to use a self-pay calculation to record contractual allowances By using the self-pay method, AHERF was reserving for final billed accounts. AHERF changed (is method of reserving for contractuals at EPPI to be consistent with the other hospitals. This difference relates to the new methodology. EPPI did the following: Decreased VH and DNFB by \$1.3 million Increased the reserve on Commercial by \$360,000 Moved \$345,000 of contractual reserves to bad debt reserves. **ALLEGHENY UNIVERSITY HOSPITALS** MCP DIVISION RESERVE FOR ALLOWANCES BALANCES **OUTPATIENT (1202900)**

Document 183

^{*-} BC O/P A/R written down to not collectible at time of billing, effective 3-1-96 for FYE 6-30-98 & subsequent, therefore based on review of the affected list. Plan Codes with PFSG, determined that effective 3-31-96 the current portion (0-30 days) of the aging based on visit data to be excluded from Charge Dilf. calcutation. Such excluded portion to be increased by the next oldest aging category such subsequent month during FYE 6-30-98, so that MA C/P A/R completely excluded by December 31, 1996.

^{#-}Gross A/R amounts based on blied insurance Plan code - source, Bill Gedman, Patient Accounting - see detail following.

^{@ -} Such represents additional MC O/P reserves.

S - Auto Allowance posted by Medipec system at time of billing, therefore, no charge diff, required.

^{* -} BC O/P gross A/R per Focus O/P eging report @ 7-31-96 - aged from date of last service, as such properly incrudes \$1,000,000 of \$1,399,437 BC advance truncated from the Mediples O/P eged trial belance due to a system limitation that only allows six digits left of decimal place for specific patient transactions/account balance.

^{++ -} WC O/P A/R written down to not collectible at time of billing, effective 5-1-96 & subsequent - confirmed such based on review of the average O/P W/C A/R account bulance by eging category for accounts 0 - 60 days old (\$529/account) and accounts 61-120 days old (\$529/account), therefore the average account bulance decreased \$400 or 43%. Such appears reasonable, therefore determined that effective 3-31-96 the current point or (0-30 days) of the oping based on visit date to be excluded from Charge DIR. calculation, Such excluded portions to be increased by the next oldest aging category each subsequent month during FYE 6/30/96, so that WC O/P A/R completely excluded by February 26, 1997
